

Membership Rules

To be a patient or primary caregiver associated with TeleGram Collective you are required to agree and comply with the following Membership Rules. Any violation of these rules will subject you to immediate expulsion of your membership.

Patients must be present at the specified delivery location and time with donation ready. Any patient who violates this rule will receive one strike against their membership. AFTER THREE STRIKES, THE PATIENT WILL HAVE A \$5 DELIVERY FEE ADDED TO EVERY VISIT or have their membership with Telegram MMDS terminated.

Medical marijuana is delivered to patients and primary caregivers ONLY, as per California Health and Safety Code section 11362.5, et seq.

NO medication from TeleGram MMDS may be shared, sold, bartered, traded, exchanged or delivered to anyone other than the visiting patient or primary caregiver. Medication is for personal use by patients only.

While medical marijuana is legal under the laws of the State of California, it is illegal under Federal Law. California law may or may not provide you protection as a patient or primary Care-giver. This delivery service can offer no assurance of the legality, or illegality of medicinal marijuana under Federal Law.

No Person other than the registered patient may place, discuss, or receive deliveries. If there is discussion with other non-patients in the background while placing the order with TeleGram MMDS, you must call back when you, the patient, has made your decision. Otherwise, TeleGram MMDS will be forced to refuse service in violation of our Patient Policy, and you must wait until the following day to place your order.

Do not open medication until you are in a safe location and away from children. Do not operate heavy machinery or operate a motor vehicle after medicating.

While this delivery service may or may not require returning patients to carry their original copy of their physician's recommendation, you should always have proof of your status as a qualified patient or primary caregiver when handling medical marijuana.

We reserve the right to refuse service to anyone for any reason.

If any patient or primary caregiver violates any of these rules, they are subject to immediate expulsion from the collective and all privileges shall be revoked.
