SECRET GROWERS OF IRELAND

It wasn't until October 2016 that the UK government acknowledged that cannabis has medical and therapeutic value. It's possible that this acknowledgment helped to pass legal medical cannabis in Ireland without a vote.

However, underground medical marijuana advocates have been resisting UK law for years. As a result, there is an entire secret medical marijuana industry operating in the UK. Shockingly, growers who support the underground network give away tens of thousands of dollars-worth of cannabis to people who are sick. In other words, they provide totally free but still illegal medical marijuana.

These ultra-secret growers are operating their medical cannabis charity at significant risk. The UK's conservative and punitive cannabis laws would put these good samaritans behind bars for years.

As a Viceland documentary on the underground network shows, cannabis possession will land you five years in prison. Get caught supplying, and you're looking at a 14-year sentence.

It's precisely this kind of irrational pot policy that Ireland hopes to change by legalizing medical cannabis. The black market in medical cannabis is a fact UK lawmakers can no longer ignore.

Irish lawmakers passed the medical cannabis bill with regulation and severely ill patients in mind. Currently, the bill mentions qualifying illnesses like cancer, multiple sclerosis, fibromyalgia, and chronic pain.

The bill also puts medical cannabis prescriptions in the hands of doctors. A physician will ultimately decide if their patient will benefit from cannabis treatment.

Furthermore, legislators are taking steps to learn more about the benefits of medical marijuana. Ireland's health minister, Simon Harris, will meet with regulators for advice about the scientific and clinical merits of medical cannabis. Informing health officials about the reality of medical cannabis could help the bill to pass the next round of votes.

THE ULTIMATE ST. PATRICK'S DAY GUIDE FOR BEER AND WEED PAIRINGS

Written BY ANTHONY FRANCIOSI

There is no better way to work up a thirst and prime your taste buds for the best beer from Ireland than with a bit of high-quality organic marijuana. Beer is the tastiest way to get rid of cottonmouth which is what happens when your THC-laden endocannabinoid receptors in your submandibular glands tell your parasympathetic nervous system to stop producing saliva.

BEER AND WEED

This unbreakable chemical alliance between hops and cannabis is why craft brewery sales have gone up in Colorado since recreational reefer was legalized in the state in spite of the fact that the alcohol industry and the marijuana legalization movement don't get along as well as they should.

ST. PATRICK'S DAY MARIJUANA COOKIE RECIPE

INGREDIENTS

- 1 cup marijuana butter
- 1 1/2 cups confectioners' sugar
- 1 egg
- 1 teaspoon vanilla extract
- 2 1/2 cups all-purpose flour
- 1 teaspoon baking soda
- 1 teaspoon cream of tartar

"PERFECT FOR PARTIES AND CELEBRATIONS"

Directions

In a large bowl, combine butter and confectioners' sugar. Beat in egg and vanilla extract. Mix well.

In a medium sized bowl, stir together the flour, baking soda and cream of tartar. Blend into the cannabutter mixture. Divide dough into thirds and shape into balls.

Working with 1/3 of the dough at a time, roll out dough to 1/4 inch thick on a floured surface. With a knife, cut dough into rectangles about 2 inches high by 3 inches long. (6 x 8 cm).

Place rectangles on an ungreased cookie sheet, 2 inches apart. Bake in a preheated 350 degree F (175 degrees C) oven until lightly browned. Cool completely on wire rack.

Frost cookies with Irish Flag Frosting. Make a 1 inch green stripe on the left side of the rectangles and a 1 inch orange strip on the right side, leaving the middle one inch for white frosting.

LIFE HACKS

THE 5 THINGS YOU NEED TO KNOW ABOUT JUICING CANNABIS
by Marissa Greene

1. Cannabis leaf juice won't make you high.

But it will make you healthier! Cannabis juice has a number of incredible healthy properties to them like...

2. Anti-inflammatory properties.

Cannabis is an essential vegetable for our every day lives. Not only do they have anti-cancer compounds, but they help the digestive system absorb the vitamins and minerals in the food you eat as well as decrease inflammation.

3. Cannabis bud juice will make you high.

And it's considerably safer than smoking cannabis buds. That aside, smoking cannabis is significantly safer than smoking cigarettes which are gross!

4. Cannabis is versatile.

Don't like the taste of cannabis juice? Juice it with other vegetables. Carrot and apple works really well. It's sweet, a bit tart, and extra healthy with some cannabis leaves.

5. You can ingest more cannabinoids.

Cannabinoids are the truly healthy compound in cannabis, and when you juice it, you get tons of 'em. Cannabis juice also contains CBDA, a form of CBD.
